10+ months professional experience • 15+ projects delivered

PROFESSIONAL SUMMARY

Junior WordPress Developer with 10+ months of professional experience building responsive client websites from custom Figma designs. Strong with Elementor and Elementor Pro, template kits, Advanced Custom Fields, Custom Post Types, HTML and CSS, with working knowledge of JavaScript and jQuery. Also familiar with basic WooCommerce workflows and performance-focused customization, while currently strengthening PHP skills for deeper WordPress and plugin development.

EXPERIENCE

Junior WordPress Developer | Evolversoft · Karachi

Mar 2026 - Present

Build and customize client WordPress websites with Elementor and Elementor Pro, convert custom Figma designs into responsive layouts, work with Advanced Custom Fields and Custom Post Types, and handle front-end refinement, responsive fixes and performance-focused customization.

WordPress Intern | Evolversoft · Karachi

Nov 2025 - Feb 2026

Completed four months of hands-on WordPress training and client work using Elementor, template kits, Figma-to-WordPress implementation, responsive page building and day-to-day website customization.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | Virtual University of Pakistan - Current, 2nd Semester

Three-Year Software Engineering Program | Aptech Metro Star Gate, Karachi

Completed two years of software engineering studies at Aptech followed by one year of Technical Board examinations.

Matriculation - Computer Science | Fazaia Degree College Faisal, Karachi
